Moths in your closet? Learn how to protect wool clothes and silk garments so they stay moth-free. Clean, store, and repel naturally with these simple tips.

That's why in this blog we'll look into how to prevent moth larvae from snacking on your favorite wool clothing. Preventing moth damage can seem challenging, but it's actually easy. It can come down to

To protect wool, silk, and cashmere garments, store them in clean drawers or wardrobes with natural moth repellents, such as lavender and cedarwood. These scents deter moths

Keep an eye on your sweaters and other wool clothes for signs of moths, and be diligent about keeping them clean. Likewise, wash any vintage or used clothes you buy before

Clothing moths lay eggs on animal-based fabrics like wool and silk, and it's the larvae (not the adult moths) that chew holes in your garments. To prevent infestations, regularly

To keep your wool clothing safe from moths, start by washing your clothes in hot water or having them dry-cleaned, since moths are attracted to sweat and skin cells.

Comprehensive steps to identify wool-eating pests, eliminate active infestations, and implement long-term storage protection.

Moths lay eggs on wool sweaters that hatch into larvae that feed on the fibers, leaving holes. Learn seven ways to stop moths from eating your sweaters.

These pests love natural fibers, especially wool, and can quietly wreak havoc in your closet. The good news?
