In conclusion, the bag at the back of a bike is called a pannier. Panniers are a great way to carry gear on your bike, and they come in a variety of sizes and styles to suit your needs.

The traditional rear rack is a relatively simple metal tubed affair that mounts to points on the bike frame near the rear hub and at the top of the seat stay, just behind where the seat post enters the frame.

The rear derailleur is the bike part that moves the chain from one cassette cog to another on the rear wheel when you shift gears. It works in conjunction with the jockey wheel.
